

Dynamic QR Code Card

Single/Dual Interface Dynamic QR Code Card featuring OTP security with thinness and high-resolution E-Paper display with no backlight required.

The display will retain even without power source. Made for authentication such as payment, ID, and cryptocurrency given the dynamic QR code and OTP features.

Specification

Power Source:	Rechargeable battery
Communication Frequency:	13.56MHz
Dimensions:	ISO 7816-1, Type ID-1, 85.6mm(W)*54mm(H)*0.8~0.9mm(D)
Material:	PET or PVC or PETG
Operating Temperature:	0°C ~45°C
Storage Temperature:	-20°C ~50°C
SE IC:	Encrypted IC chip that helps protect against hacking
